SUPREME SILICONE WINDOW & DOOR SEALANT

Supreme Silicone Window & Door sealant is a premium, 100% silicone and 100% waterproof sealant that can provide a reliable seal in weather-prone areas. This sealant offers 40% more flexibility than Class 25 sealants¹ and 7X stronger adhesion than Silicone sealant². This sealant has lifetime mould-free product protection³ to resist stain-causing mould and mildew growth. Backed by a lifetime guarantee⁴.

- 100% silicone
- 100% waterproof & weatherproof
- Lifetime mould-free product protection³
- Meets ASTM C-920, Class 50
- 100% more flexibility than Class 25 sealants¹
- 7X stronger adhesion²
- 30-minute rain-ready⁵

ADVANCED SILICONE WINDOW & DOOR SEALANT

Advanced Silicone Window & Door sealant is a 100% silicone and 100% weatherproof sealant ideal for protecting areas susceptible to harsh weather. Its 30-minute rain-ready⁵ formula offers 40% more flexibility than Class 25 sealants¹ and is 5X stronger than Silicone sealant². In addition, it has 10-year mould-free product protection³ to help resist mould and mildew growth. Backed by a lifetime guarantee⁴.

- 100% silicone
- 100% waterproof & weatherproof
- 10-year mould-free product protection³
- Meets ASTM C-920, Class 35
- 40% more flexibility than Class 25 sealants¹
- 5X stronger adhesion²
- 30-minute rain-ready⁵

ALL PURPOSE SILICONE SEALANT

All Purpose Silicone sealant is a 100% silicone and 100% weatherproof sealant ideal for areas that could be exposed to weather. Its same-day rain-ready⁵ formula⁶ is extremely flexible with strong adhesion and resistance to stain-causing mould and mildew growth with 7-year mould-free product protection³. Backed by a lifetime guarantee⁴.

- 100% silicone
- 100% waterproof & weatherproof
- 7-year mould-free product protection³
- Meets ASTM C-920, Class 25
- Permanently flexible
- Strong adhesion & durability
- Same-day rain-ready⁶
- Shrink & crack-proof
- Freeze & sun-proof
- Lifetime guarantee⁴

¹Based on comparison with products that meet the flexibility performance of ASTM C-920 Class 25 test requirements.

²Based on comparison of this sealant and GE Silicone 1™ sealant using ASTM C794 Peel Adhesion test.

³Fully cured sealant is resistant to stain causing mould and mildew. Regular cleaning of the cured sealant is required, however, as soap and other residue can cause secondary mould and mildew growth.

⁴Manufacturer warrants that this product, when used as directed, will meet the above specifications for as long as you own your home. If not satisfied, return proof of purchase for refund. This is the sole and exclusive remedy and Manufacturer shall not be liable for any damages in excess of the purchase price. This warranty is in lieu of all other warranties, express or implied, including any warranty of merchantability or fitness.

⁵Exposure to water possible in as little as 30 minutes with bead size maximum of 3/16", temperature minimum 65° F, and humidity minimum 50 percent. Otherwise, caulk should not be exposed to water for eight hours. Do not touch or clean caulk for 24 hours.

⁶Exposure to water possible in as little as 12 hours with bead size max 3/16", temperature min 65°F and humidity min 50%. Do not touch or clean sealant for 24 hours.
